

# Intro to EQ8

**Welcome to Intro to EQ8!**

This class will also be useful to you if you have EQ7

If you are going to work along with me, please have your EQ software installed and ready to go.

Please be ready with your favorite note-taking materials.

Peppermint Pattis might be nice ;-)

If there is a specific personal goal you have in mind for the class, please feel free to let me know ahead of time so that I can do my best to incorporate into the class agenda. See my email below.
